Machine learning

Data Structures and Algorithms

SQL

## PERSONAL PROJECTS

An educational website intended for students of class 8th-12th where they can get one on one mentorship (06/2020 - 07/2020)

- This was the project I worked on as part of my internship with MissionEd. My task was to work with the back-end development team to write the entire back-end for the website and integrate it with the front-end.

Portfolio website (12/2019 - 12/2019)

- A website about my education, accomplishments, projects, etc.

Alphabet Kit for kids (08/2020 - Present)

- An application where kids aged 3-6 can learn alphabets and their phonetic sounds with a customized curriculum based on their performance.
- Made using Django and Deep learning

## CERTIFICATES

Machine learning A-Z course from Udemy

Data Science training from Internshala trainings

Web development using Django from Udemy

## ACHIEVEMENTS

Received academic award for exemplary performance for the session 2018-19

Won the third prize in "CODIFY" contest in the annual tech-fest of MSIT

Won the first prize in "BUG-DEBUG" contest in the annual tech-fest of GGSIPU

Received a scholarship for getting 10 CGPA in class 10th in 2014

Bagged AIR 26 in International English Olympiad in 2010

## LANGUAGES

English

Full Professional Proficiency

Hindi

Native or Bilingual Proficiency
